WISP

WISP dividing panels divide open areas into functional and aesthetic zones. Freestanding and upholstered, they create ideal alcoves for meetings or precision work, while improving acoustic comfort. A version with an integrated table optimizes tight spaces, while an optional whiteboard encourages note-taking and collaborative discussions. Available in two upholstery styles, with a wide choice of fabrics and colors, they can also be mounted on casters for greater mobility. Versatile and refined, they adapt to your needs and enhance your workspace.

More choice, more possibilities

Customize your Wisp wall, available in two upholstery styles, by choosing from our wide selection of fabrics and colors, then determine the configuration that best suits your needs: without shelves, with side shelves or with a work surface. No matter your choice,
